GS SOFTWARE PRODUCES SYSTEMS RECOGNIZING VEHICLES' PLATE NUMBERS

✓ Advantages of systems recognizing vehicles' plate numbers

- ✓ Automation and unification of how vehicles entering plant premises are inspected
- ✓ Reducing the risk that unauthorized persons will enter the company premises (vehicle notification)
- ✓ Vehicles' photos and recognized plate numbers are saved
- ✓ Precise records of vehicle weight as well as entry and exit times
- ✓ Faster service time
- ✓ The risk of operators' error or abuse is minimized
- ✓ Automatic control of the barrier or gate - the system does not require to be operated by an employee
- ✓ Possibility to generate detailed reports
- ✓ Possibility to integrate with ERP systems
- ✓ Operation adopted to the company's individual needs

✓ Sample photos
